REFERENCES

We hereby confirm our satisfaction with the cooperation with WB Law led by attorney Marcelina Wilczyńska and attorney Agnieszka Bruderek, who successfully represented the interests of our company in cross-border debt recovery cases in Poland.

As an entity registered in Ireland, operating in an international model, we needed professional legal support in:

- conducting negotiations with debtors,
- development and implementation of a debt recovery strategy,
- representation in court and enforcement proceedings in the territory of Poland,
- advice on security and effective enforcement of judgments.

The Firm's lawyers demonstrated high efficiency, very good knowledge of the realities of international cooperation and a flexible approach to communication and jurisdictional differences. Importantly, the law firm's actions were always transparent, prompt and result-oriented.

We recommend WB Law Firm with full conviction as a proven partner for foreign claimants in the Polish market.

Yours sincerely,

Derrick Healy
